AN URGENT MESSAGE TO DEPT. OF EDUCATION AND LABOR
CHAIRMAN GEORGE MILLER

Dear Chairman George Miller,

The following is an excerpt from the recently released UC Davis Law Review entitled, STATE ACTORS BEATING CHILDREN: A CALL FOR JUDICIAL RELIEF:

> "…the nature of corporal punishment's impact on children is profound, dangerous, and enduring, rendering it a very serious liberty violation worthy of heightened judicial review… its dangerous consequences for both children and society renders it an irrational practice that cannot withstand constitutional scrutiny."

The widespread use of sanctioned corporal punishment and other forms of abuse used to discipline our American school children is a violation of their inalienable right, as US citizens, to be protected by the 14th amendment "equal protection" clause.

We The People demand that US Government Officials empowered to bring this dark chapter of American history to a close, do so IMMEDIATELY, by upholding their sworn duty to extend ALL US Constitutional rights to ALL Americans, including American school children.
